OPEN: Mon., Tues., Fri., Sat. 9.30-5.30  
 Thursday 9.30-7.00

TEL: (020) 8393 3232

## Drones

Drones have become very popular in recent years as they are generally much easier to fly than helicopters and easier to repair in the event of a crash.

Many drones have video cameras available either as standard or as an optional extra. The cheaper ones

download their footage to a memory card and can be viewed through a card reader equipped PC or similar. Dearer ones have the ability to downlink the data direct to a phone or pad as the footage is being filmed. When combined with built in GPS positioning this makes it possible to aim the camera from the ground.

### Neon X

The Neon X is a tiny drone that is only 62 mm square including the props. It is easy to fly but only suitable for indoor use. A button on the transmitter allows it to do complete 360 degree flips. It comes ready to fly complete with a USB charge lead and a transmitter requiring 2 AAA batteries.

#### NEON X PACKAGE DEAL

Neon X	£25.99
<b>Total:</b>	<b>£25.99</b>

### Free Loop

The Free Loop is a small (139 mm square) drone designed for indoor flying. It has selectable modes for either docile beginner-friendly handling right up to full aerobatic mode with 360 degree flips at the push of a button.

The party trick of the Free Loop is upside-down flying. A push of a button on the transmitter flips it inverted and reverses the controls so it can be flown normally and even "landed" on the ceiling! Another button push flips it back the right way again.

#### FREE LOOP PACKAGE DEAL

Free Loop	£39.99
<b>Total:</b>	<b>£39.99</b>

### Twister Quad 2.4G

The Twister Quad drone is a very versatile quad copter that is 310 mm square. It has four selectable modes for either docile, indoor beginner-friendly handling right up to full outdoor aerobatic mode. It also features a lighting system, a 4 channel 2.4 ghz R/C system and even a spare set of rotors and a spare canopy.

#### TWISTER QUAD 2.4G PACKAGE DEAL

Twister Quad 2.4G	£44.99
<b>Total:</b>	<b>£44.99</b>

### Ares Ethos QX130

The Ares Ethos drone is similar to the Twister Quad but has a lot of optional extras that can be fitted to it later. These include a camera (£23), missile launcher, winch and a bubble blower (all £10). It has four selectable modes for either docile, indoor beginner-friendly handling right up to full outdoor aerobatic mode. It also features a lighting system, a 4 channel 2.4 ghz R/C system and even a spare set of rotors.

#### TWISTER QUAD 2.4G PACKAGE DEAL

Ares QX 130	£54.99
<b>Total:</b>	<b>£54.99</b>

## Syma X5SC

### SYMA X5SC PACKAGE DEAL

Syma X5SC	£69.99
<b>Total:</b>	<b>£69.99</b>

The Syma X5C drone measures 310 mm square and comes complete with a digital camera that stores video on a memory card. The 2.4 ghz R/C system has selectable modes going from docile handling up to full outdoor aerobic mode and a button that lets you easily perform 360 degree flips.

## Lark and Glede FPV

The Lark and Glede are both much larger (485 mm square) than the Ethos QX130 and so fly better outdoors. They

come with an on board digital video camera on an anti-vibration mount that can shoot 720p res at 60fps or 1080p res at 60fps and store it on a memory chip. The images they take are sent back to either your iOS or Android smart phone with the Glede or to a supplied screen with the Lark, so you can see what you are shooting in real time.

### GLEDE FPV PACKAGE DEAL

Glede FPV	£124.99
<b>Total:</b>	<b>£124.99</b>

### LARK FPV PACKAGE DEAL

Lark FPV inc screen	£169.99
<b>Total:</b>	<b>£169.99</b>

## Detect X380-C

The Detect X380-C is a large 500 mm square drone that mounts a high quality 1080p camera on a gyro stabilised motorised mount. The built-in GPS, compass and altitude sensor allows selectable flight modes including one button take off and landing, heading hold, fly home and point at target.

The Detect X380-C comes complete with a high capacity 11.1V 5,400 mah lipo battery that gives a 30 minute duration and a charger. A 4.3" FPV screen for the Detect X380-C will be available later at approx £140.

### DETECT X380-C PACKAGE DEAL

Detect X380-C inc camera	£424.99
<b>Total:</b>	<b>£424.99</b>

## Ripmax Transition VTOL

The Ripmax Transition is a VTOL aircraft rather than a pure helicopter. In hover mode it flies much like a quad copter, but as the press of a button the motor pods and rotors swivel forward. It then becomes a conventional aircraft, using its wings for lift. The Transition comes without a transmitter and receiver and but can be flown on any 5 channel or higher set.

### RIPMAX TRANSITION PACKAGE DEAL

Ripmax Transition VTOL aircraft	£299.99
DX6i transmitter and receiver	£124.99
14.8V lipo battery (1300 mah)	£12.99
Charger	£29.99
<b>Total:</b>	<b>£467.96</b>
